**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

1. Claims 7 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 7 and 8 recite the limitation "the water introduced..." . There is insufficient antecedent basis for this limitation in the claims.

***Allowable Subject Matter***

Claims 1-6 and 9-13 are allowed.

Claims 7 and 8 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

1. The following is an examiner's statement of reasons for indicating allowable subject matter: the prior art of record includes processes of remediating contaminated soil or groundwater including introducing hydrogen peroxide and nutrient; e.g. Hazen, et al. (U.S. Patent number 5,384,048); Klecka (U.S. Patent number 5,578,210); and Kerfoot (U.S. Patent number 6,805,798). WO 98/35768 (cited by applicant) teaches a similar process and suggests a temperature in the range of 20°-40°C for the duration of hydrogen peroxide addition. The prior art fails to disclose or suggest such a process in

combination with the claimed process steps including maintaining temperature and rate of temperature increase; increasing rate of hydrogen peroxide; and flushing to reduce temperature, each with the specific parameters set forth in claim 1.
